

YAZHINI's PORTFOLIO

About Projects Skills Contact

Hi, I am YAZHINI.

About Me

I am cuurently pursuing my B.Tech Computer Science Engineering(Artificial Intelligence) at Karunya Institute of Technology and Sciences.

Projects

Attendance Management System(java)

This prject aims to monitor the attendance in institutions. The project is done with java swings and my sql. The provides service for three user admin, teachers, studernts. The admins can add students, teachers , add classes. the yteacher can add or edit the attendance. The students can only view the attendance.

BUS TICKET BOOKINK SYSTEM(HTML)

The bus ticket booking system provide the service for the users to book tickets. At first the user should enter the details like source, destination, date,etc..Then it shows the available bus list in drop down. Then the user should select thne bus and choos the seats. Then it proceeds with payment details it just check for validation(non empty). The Ticket booked successfully message will be shown in pop up.
